How Domestic Politics Influenced Foreign Policy in the 1940 Election: FDR, Domestic Politics, Foreign Policy, and the Election of 1940 David DeSilvio

The 1940 election marked a new era in presidential politics. With a cataclysmic crisis developing, Americans could no longer ignore foreign affairs. Roosevelt, a remarkably astute politician, evermindful of public opinion, believed that U.S. national security was tied to foreign affairs. With the outbreak of war, he considered challenging the "no-third-term" tradition. As the Nazi threat grew, FDR remained silent about his political future, but worked feverishly to aid the Allies and awaken Americans to the danger of Hitler. A multitude of forces were arrayed against FDR that strongly opposed U.S. involvement in another European War. To keep Britain viable and his reelection options open Roosevelt played politics with foreign policy, manipulating it to further his political agenda. The literature on Roosevelt is overwhelming, yet previous works concerning this election deal with the influence of foreign affairs on domestic politics. This book considers the opposite -- how politics shaped U.S. foreign policy. The analysis presented sheds new light on this exciting election and is a must-read for all FDR scholars.
