Getting a new job is a frightening proposition, and it all starts with the scary interview, leading to the scary follow up and the scary first day (although that is a good scary!)

The Secret to my Interviewing Success: After utilizing the principles in this book, I was able to get 5 follow up interviews from 5 different companies all within a 3 week timeframe. I received offers from 3 of them and accepted a project that made me very happy for several years.

I bet you are tired of everyone telling you the same old stuff: "Whatever is meant to be will be" or my favorite "The perfect job for you just hasn't opened up yet."

I was interviewing for jobs I was well qualified for, yet getting the broom time and time again. I am pretty sure I am not a raving a-hole, so what gives? Only after about 10 failed attempts did I start to look inward and wonder whether maybe it was something I could fix.

Needless to say there are hundreds of books and articles on the subject and I bought them all. So my goal for this book is to distill down and give you my take on the best and most effective solutions that I found to getting a YES from my interviews. I am confident that you will find multiple nuggets of gold in these pages and I wish you the best of luck! See you in the trenches!
