Reviews:

“This is a wonderful and inspiring book on ways to change who we are and how we face the world. Granted we all have certain obligations to live and do things as expected of us, such as family, careers and so on but there is not one good reason not to live to your full potential. The author touches on so many aspects and gives very sound advice and techniques for change. We fall into line and follow the masses, and stress and struggle with things we can change. The book made me re-think many things and gave me insight on areas in my own life I can and want to change. It is well written and easy to read; he says what he thinks and delivers no fluff. I am impressed by the author, Luke Dufour. He is open and candid and I found his words, ideas and outlook to be encouraging and real. The book left me feeling empowered to become the person I want to be and deserve to be. Take life by the horns and own it. We only live once, make it count! I definitely recommend this book to everyone, we never stop learning and life is about change”.

“The author of this book brings up some really good points that everyone should know. I think that everyone should be reading this book, so they can learn how to adjust their thinking on a daily basis. If you are someone who wants to succeed in life, then the steps listed in this book are for you. The author covers the topics of problem solving, time management and thinking both negatively and positively. If you really pay attention to what the author is saying, then you should finish the book with a clear plan on how to change the way you are living your life. You will be able to implement plans on how to live a life that is well balanced, where you are in control of the future. You will find out what should be important in your life and learn ways to achieve all of your goals. If you are tired of being just a person, doing the same thing over and over, then you need to read this book and discover how you can change for the better”.

“‘Lose Your Average-inity: Rise Above The Average’ by Luke Dufour is a skillfully crafted book which details how anyone can choose to be extraordinary instead of ordinary. When I started to read this book I realized very quickly that the author is extremely knowledgeable on the subject of success. This book is a wealth of information! What I really appreciated is how the author invites all readers to reach their potential when he states ‘You’re the one who has the potential for greatness and deserves to gain this information’. Everyone who reads this book can take the wisdom from these pages and put it into action in their lives. This book will open your eyes and keep you from catching the disease of being average. You will learn to address and solve problems after reading this book as you journey down your personal path toward greatness. Also, this book will teach you how to not be sucked into wasting time and listening to what the rest of what society is listening to because to be successful you need to listen to things that will strengthen in your mind. This book has so many skills that will help you rise above being average. It is rare that you come across such a powerful book as this one and I think this book should be required reading for anyone in high school before

they enter the work world because this book will help set them on the road to success. I highly recommend this book.
