Counselling In The Pastoral And Spiritual Context (Counselling in Context) David Lyall

This volume explores the practice of counselling not only in the context of traditional ministries of pastoral care within the Christian Church, but also in the context of other world religions and among counsellors with a concern for the spiritual dimension of life. A detailed account is given of the development of pastoral counselling in Britain; parallel movements in other major world religions are examined. An attempt is made to engage sympathetically with the theory and practice of a wide range of approaches to counselling in a context which embraces both the rapidly growing Christian counselling movement and more humanistic understandings of spirituality.
