When you believe you know all the answers, you stop asking questions and learning stops. Amazon Breakthrough Novel Award Quarterfinalist *THE BETWEEN*—where psyche meets spirit—is a place of chaos most of us don't enter willingly. Instead, we're catapulted there by a life-changing event, which in fiction is called the "inciting incident." Like the fictional hero, we enter "The Between" kicking and screaming and confront obstacles and tests we aren't prepared or equipped to handle. We face-plant over and over, or so it seems, until we finally surrender to the new circumstances of our life-journey and go with the flow instead of against it. The result? Spiritual and emotional freedom. Join rookie teacher, Marjorie Veil, in Book One of the Enter the Between series, a paranormal adventure of personal growth and transformation. *MEDICATE OR NURTURE, REFORM OR SET FREE?* ADHD or gifted, psychic or freak? These are quandaries Marjorie Veil faces when she takes on a class of thirteen-year-olds labeled as troublemakers, unteachable, and hopeless. Faculty skeptics warn that all these kids need is prescribed medication for focus and impulse control. But as Marjorie soon discovers, these troubled teens called Indigos are actually highly gifted kids with unique psychic abilities. The trouble? They loathe absolute authority and overly regimented routines. Marjorie feels a deep connection to these misunderstood teens. After all, she has been fighting her own recent battle against authority and routine, a large factor in her decision to try teaching instead of continuing a lucrative career at a Silicon Valley venture capital firm. She yearns to discover a path based on meaning and purpose rather than income and security, and at twenty-eight and about to get married, she doesn't have much time. Then there's the matter of her own psychic abilities, which she has kept hidden until now. *FEED THE SPIRIT AS WELL AS THE MIND:* Marjorie agrees to mentor the Indigos, but before their sessions begin, she is pitted against school tradition and faculty skeptics in the person of department head, James Lacoste. He calls the Indigos resistant brats and questions Marjorie's teaching skills. But instead of bending to his authority as she would have in the past, Marjorie challenges it, convinced that by countering the harsh judgments of institutional authority with love and understanding, she can help the Indigos reach beyond negativity and lost hope. *ANCIENT WISDOM AND QUANTUM SPIRITUALITY:* What nearly destroys Marjorie's resolve, however, is the resistance of the Indigos. How can she help students who see themselves as misfits with ADHD and refuse to cooperate? Slowly, from Jason The Wolf Ardis, with his telekinetic powers, to Codi Baad, who probes people's minds, Marjorie wins over seven reluctant students. She introduces ancient traditions for modern times and quantum physics spirituality into the classroom, including meditation, visualization, and the Native American Medicine Wheel. Rumors fly about campus that she's pushing pagan superstition and running weird experiments. But Marjorie persists, using intuition as her guide. As the Indigos unveil their secret passions and fears, Marjorie realizes that their greatest need is not for prescribed medication or punishment but for people who will watch over and watch out for them. Rather than urge them down paths of her making, she must allow them to step into their own life stories and embrace their unique talents. But it seems that everything she does with and for these kids involves risk and invites trouble. Can she help them do what she has been unable to do for herself: fight for their spiritual and emotional freedom? *PARANORMAL ADVENTURE:* Join in this paranormal adventure of personal growth and transformation, which introduces ancient wisdom for modern times and quantum physics spirituality.
