Children: Rights and Childhood (Ideas) David Archard

Children: Rights and Childhood is widely regarded as the first book to offer a detailed philosophical examination of children's rights. Drawing on a wide variety of sources from law and literature to politics and psychology, David Archard provides a clear and accessible introduction to a topic that has assumed increasing relevance since the book's first publication.

Divided clearly into three parts, *Children: Rights and Childhood* covers key topics such as:

- John Locke's writings on children
- Philippe Aries's *Centuries of Childhood*
- key texts on children's liberation and rights
- a child's right to vote and to sexual choice
- the rights of parents and the state over children
- defining and understanding child abuse.

The second edition has been fully revised and updated including a new preface, a new chapter on children's moral and legal rights, taking into account the United Nations Convention on the Rights of the Child.
