Peterson's New SAT Math Workbook provides targeted test preparation for the new SAT I exam that will be introduced in March 2005. This title is designed as a self-teaching text to prepare for the mathematics sections of the SAT. At the beginning of each chapter, there is a ten-question diagnostic test to guide the student's preparation throughout the book. At the end of each chapter is a retest that is similar to the diagnostic test. It also includes hundreds of practice problems covering geometry, algebra, fractions, and more, as well as expert test-taking strategies, flexible study planning, user-friendly design geared to the high school student, and answers with comprehensive explanations for all test items in an easy-to-use workbook format.
