Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science)

Lawrence L. Kupper, Brian. H Neelon, Sean M. O'Brien

Exercises and Solutions in Statistical Theory helps students and scientists obtain an in-depth understanding of statistical theory by working on and reviewing solutions to interesting and challenging exercises of practical importance. Unlike similar books, this text incorporates many exercises that apply to real-world settings and provides much more thorough solutions.

The exercises and selected detailed solutions cover from basic probability theory through to the theory of statistical inference. Many of the exercises deal with important, real-life scenarios in areas such as medicine, epidemiology, actuarial science, social science, engineering, physics, chemistry, biology, environmental health, and sports. Several exercises illustrate the utility of study design strategies, sampling from finite populations, maximum likelihood, asymptotic theory, latent class analysis, conditional inference, regression analysis, generalized linear models, Bayesian analysis, and other statistical topics. The book also contains references to published books and articles that offer more information about the statistical concepts.

Designed as a supplement for advanced undergraduate and graduate courses, this text is a valuable source of classroom examples, homework problems, and examination questions. It is also useful for scientists interested in enhancing or refreshing their theoretical statistical skills. The book improves readers' comprehension of the principles of statistical theory and helps them see how the principles can be used in practice. By mastering the theoretical statistical strategies necessary to solve the exercises, readers will be prepared to successfully study even higher-level statistical theory.

From reader reviews:

Bridget Dell:

Do you have favorite book? Should you have, what is your favorite's book? Guide is very important thing for us to understand everything in the world. Each e-book has different aim or maybe goal; it means that book has different type. Some people sense enjoy to spend their time and energy to read a book. They may be reading whatever they acquire because their hobby is definitely reading a book. What about the person who don't like examining a book? Sometime, man feel need book if they found difficult problem as well as exercise. Well, probably you should have this Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science).

Janice Perry:

Reading can called thoughts hangout, why? Because if you find yourself reading a book specially book entitled Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) your thoughts will drift away trough every dimension, wandering in every aspect that maybe unidentified for but surely will become your mind friends. Imaging every single word written in a book then become one application form conclusion and explanation this maybe you never get previous to. The Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) giving you another experience more than blown away your head but also giving you useful info for your better life in this era. So now let us present to you the relaxing pattern this is your body and mind will be pleased when you are finished reading through it, like winning a casino game. Do you want to try this extraordinary investing spare time activity?

Rose Ibarra:

You are able to spend your free time to see this book this reserve. This Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) is simple to develop you can read it in the park your car, in the beach, train and soon. If you did not have got much space to bring typically the printed book, you can buy the particular e-book. It is make you quicker to read it. You can save the particular book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.

James Wendler:

Reading a publication make you to get more knowledge from the jawhorse. You can take knowledge and information from your book. Book is created or printed or highlighted from each source in which filled update of news. With this modern era like now, many ways to get information are available for you actually. From media social similar to newspaper, magazines, science publication, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Isn't it time to spend your spare time to spread out your book? Or just in search of the Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) when you necessary it?
