When it comes to older mystery and crime novels, most people think about Sherlock Holmes. Undoubtedly, however, for the people of France who were contemporaries of Maurice Leblanc, another name reigned supreme among those dedicated to solve the most complicated and difficult mysteries of them all: Arsene Lupin. Although Lupin is a thief, and he appears in the book under the alias Prince Renine, he quickly proves his worth by tailing a notorious and mysterious killer who had already done away with half a dozen Parisian women. As the murderer's next victim is likely to be Renine's lover, his brilliant deduction skills and remarkably sharp intellect makes him the most suitable person to finally catch the killer and put an end to her terrorizing actions. There are many facets of this novel that are likely to keep the reader not only entertained, but quite fascinated as well. First of all, Lupin is not your ordinary crime solving detective. He is an individual with a past of his own and secrets that must not be revealed. He is also a complex character that gradually grows on you as you continue to read. The plot is quite dynamic, Leblanc making sure that none of his readers will be bored, even though they may be reading his book many decades later. The engaging action, detailed descriptions, fast-paced twists and turns and Lupin's remarkable charisma and unmistakably French qualities have been entrancing readers for years, as many who have picked up the book were unable to keep themselves from reading it again later on. Fans of Sherlock Holmes or Hercule Poirot will likely not be disappointed with this thrilling novel, as *The Eight Strokes of the Clock* establishes itself as an extremely insightful, intricate and entertaining book that will keep you glued to your seat reading it for many hours.
