Tom Franklyn, an attractive, ponytailed guy in his late 30's is an Engineering Operations Manager who has recently been transferred to another of his employers' locations, which means he's on the lookout for a place nearer to where he'll be working. Naturally, his firm will cover his moving expenses and recommended a particular letting agent to assist in his search for a suitable property to rent. Cue Becky Stuart, a very attractive, blonde-haired woman in her early 30's, highly experienced in finding places to her clients' specifications no matter how long it takes; she's persistent, charming and won't give up easily. After a couple of weeks searching, Becky finds the perfect property for Tom, but they also find an attraction to one another that blossoms very quickly into a relationship that feeds both their desires for obedience and discipline in their lives: she likes to dominate men whilst he prefers to be dominated by a woman and it doesn't take long before their appetites are fed from the things they love the most. Once she realises that Tom wants her to be in charge of their relationship, Becky takes full advantage of the situation, steering her new toy through a series of challenges to test his loyalty and obedience to her whims, tasks that Tom isn't used to, but which he performs all the same if it makes his mistress happy. What he doesn't realise at first is that these are the very things he's always wanted and it's only after doing them that his reservations are quashed. There are some surprises along the way, but these too are mere tests to see if Tom really is the right man for Becky.
