### **Interesting Book** By Leanne

I think this book is really about evaluating yourself and what you want out of life. It is more of a workbook and asks the tough questions people generally don't ask themselves and it was great to read because of this. It then goes into Developing your gift and Giving it to the world. This was an interesting book and a worthwhile read for anyone wanting to learn more about themselves.

### **Awesome** By Peter

### **Best book on this subject** By Sarah

After reading other books on this subject, I discovered this one as the best summary of the ingredients I was looking for, to deal with My Purpose in Life. There are questions that opened my mind in a way that I never imagined. I read it from beginning to end in a few hours and I took very interesting notes for my personal analysis. I highly recommend the book to everybody. Kind regards Sarah
