This study aid features an innovative method of content organization. It uses a checklist format to lead students through questions they need to ask to fully evaluate the legal problem they are trying to solve. It also synthesizes the material in a way that most students are unable to do on their own, and assembles the different issues, presenting a clear guide to analysis that students can draw upon when writing their exams. Other study aids provide sample problems, but this book offers a systematic approach to problem solving.
