New Eyes: A Unifying Vision of Science and Spirit (B&W) Mr. Steven P. Treu

Science and spirituality have long been considered to be in conflict with each other, but it is becoming clear that the two disciplines are not mutually exclusive — they are merely different 'languages' that explain the same thing. Amazing new advances in science over the past century have gone largely unnoticed by the mainstream, including the probability that we are living in a holographic universe and that invisible energy fields are extremely influential in guiding our thoughts and behaviors. Such progress has only served to complement and clarify spirituality, not detract from it. Indeed, science is proving to be a very valuable tool for personal growth. Quantum physics, in particular, offers dynamic therapeutic applications while also providing broad support for the profound wisdom of the world's best-known spiritual teachers ... which ultimately unites all religious perspectives. "New Eyes" links the brilliant findings of the world's greatest scientists (Einstein, Planck, Bohr, Susskind, etc.) together with the insights of the world's greatest spiritual leaders (Jesus, Buddha, Krishna, Muhammad, etc.) in simple terms. Topics include the science of $E=mc^2$, relativity, superposition, the observer effect, entanglement, the holographic universe, timelessness, Buddhism, Hinduism, Islam, Christianity, Gnosticism, Kabbalah and more. This book will demonstrate what your life's "path" is and your final destination (whether you call it nirvana, heaven, Christ Consciousness, Krishna Consciousness, Unity Consciousness, enlightenment or merely a peaceful mind) and how to get there. The concepts discussed in this book have been used to help clients break free from depression, anxiety, grief and addiction issues while facilitating their understanding of their biggest existential questions: What's the meaning of life? Is there a heaven? Is there life after death? And who or what is God? "New Eyes" is a book about the true nature of reality. There is a synergy within these pages, as scientific theories and facts are artfully merged with spiritual truths that can help you experience healing insights and inspiring revelations. New Eyes await. Seek and you will find.
