## **Spatial Planning and Urban Development in the New EU Member States: From Adjustment to Reinvention (Urban and Regional Planning and Development Series)**

Uwe Altrock, Simon Guntner

Accession to the EU in May 2004 was a historic milestone for the spatial and urban development of the new member states. Meanwhile, the social and economic transition during the pre-accession phase already brought about radical changes in national urban systems and new challenges for regional development. In this edited volume, a carefully selected and specially commissioned set of articles, written by experts from both the new and the old EU member states, presents a comprehensive assessment of emerging political and planning solutions at local, regional, national and EU levels. Topics include brownfield redevelopment in the Czech Republic, urban sprawl in Hungary, the upgrading and integration of marginalized Roma settlements in Eastern Slovakia and sustainable coastal management in Cyprus.
