For some, business networking is painful and they avoid it like the plague.

Ken is one of those people. He owns a small business that is in the same predicament as many others: it's struggling. Out of the blue, one of Ken's top customers invites him to visit local networking group. At first he resists, but finally says yes.

This is a short novel with a practical story detailing Ken's transformation from avoiding networking at all costs, to making it a pillar in his business. Experience the lessons yourself with the practice sessions at the end of every chapter.
