## The Nature of Empires and the Empires of Nature: Indigenous Peoples and the Great Lakes Environment (Indigenous Studies)

Drawing on themes from John MacKenzie's *Empires of Nature and the Nature of Empires* (1997), this book explores, from Indigenous or Indigenous-influenced perspectives, the power of nature and the attempts by empires (United States, Canada, and Britain) to control it. It also examines contemporary threats to First Nations communities from ongoing political, environmental, and social issues, and the efforts to confront and eliminate these threats to peoples and the environment. It becomes apparent that empire, despite its manifestations of power, cannot control or discipline humans and nature. Essays suggest new ways of looking at the Great Lakes watershed and the peoples and empires contained within it.
